SUBJECT: Announcement of Ballot Resolution Meeting for ISO/IEC DIS 16262: Information technology - Programming languages, their environments and system software interfaces - ECMAScript: A general purpose, cross-platform programming language

Topic: DIS 16262 ECMAScript Date: Monday, June 15, 1998, 9:00am - 5:00pm

Location: Sun Microsystems, Menlo Park, California

Convener: Bob Mathis, bob@pithecanthropus.com

Hosts: Gary Robinson and Karl Matzke, Karl.Matzke@Eng.Sun.com

Project Editor: Mike Cowlshaw, mfc@uk.ibm.com

Currently Available Comments: <http://www2.hursley.ibm.com/tc39/>

Preliminary Discussion: sc22jsg@dkuug.dk,

<http://www.dkuug.dk/JTC1/SC22/JSG>

There will be an ISO/IEC Ballot Resolution Meeting on DIS 16262 ECMAScript hosted by Sun Microsystems at Sun's campus in Menlo Park, California, USA, on Monday, June 15, 1998, at 9:00am local time. This location is south of the San Francisco airport and north of the San Jose airport. Details about the meeting room will be provided later (when an estimate of attendance can be made). There are numerous hotels in the area and no particular recommendations are being made. (The host could provide some assistance to anyone needing it.)

The Ballot has closed on DIS 16262 ECMAScript. The ITTF Table of Replies is currently only available in paper form, but will soon be converted to an appropriate electronic format for wider distribution. Some of the comments are already available at <http://www2.hursley.ibm.com/tc39/>. ECMA TC-39 (the originating group) has scheduled a meeting for May 15 to review the comments and draft preliminary replies in preparation for the ISO/IEC Ballot Resolution Meeting. TC-39's reactions will be posted at both sites mentioned above.

All ISO/IEC member bodies are encouraged to participate by sending delegations to this Ballot Resolution Meeting. Countries that voted NO are expected to send delegations. Countries that submitted comments are strongly encouraged to send delegations.

Delegation lists should be provided to the Convener (Bob Mathis, bob@pithecanthropus.com) and host (Karl Matzke, Karl.Matzke@Eng.Sun.com) sufficiently in advance of the meeting to make proper arrangements.

The comments currently available electronically can be viewed at <http://www2.hursley.ibm.com/tc39/>. That list will be updated with additional information as it becomes available. ISO/IEC discussion in advance of the meeting will be conducted on the SC22 Java Study Group mailing list: sc22jsg@dkuug.dk. Information about subscribing to that list is available at <http://www.dkuug.dk/JTC1/SC22/JSG>.

The agenda will consist essentially of discussion of the comments. A detailed agenda will be developed based on ECMA TC-39's initial responses to the comments. The detailed agenda will be posted at <http://www.dkuug.dk/JTC1/SC22/JSG> and mailed to sc22jsg@dkuug.dk. Potential delegates and interested

national committees should subscribe to that list and/or check that Web site. Any other updated information about the meeting will also be sent to that list.

Requests for additional information and/or other questions should be directed to the Convener: Bob Mathis, bob@pithecanthropus.com (or +1-614-538-9232 or Bob\_Mathis@compuserve.com).
