Minutes of the 94<sup>th</sup> GA meeting (GA/07/243) 3

The minutes of the 94<sup>th</sup> GA meeting were approved unanimously without changes.

- Matters arising from the Minutes not covered elsewhere 4 None.
- 5 Adoption of the agenda (GA/08/085), new documents The agenda - as posted in GA/08/085 Revision 1 - was adopted unanimously.

## 7.7 TC39 - Programming Environments

See report: TC39/08/011.

TC39 has elected a new chairman (**Mr. Neumann**) and they are working in parallel (though co-ordinated) on two new versions of EcmaScript (one version is subset of the other). There is significant concern within the GA on the TC proposed timing and naming of the two projects, especially the intent to produce two different standards (with different numbers) in the ISO/IEC environment.

**Mr. Breidthardt** cautioned to use the terms 'sub-set' and 'super set' in any explanation to justify two versions as this may raise the question why his could not be implemented as one document with optional functions. The TC39 chair clarified that this had been discussed, and that the text are significantly different such that it would hamper harmonisation. **Mr. Neumann** pointed out that the TC is aware of these problems and will work hard to make sure that the concerns of the GA are satisfied.
