Declaration:	
By signing this Registration Form and joining the TC39 RF TG the Member Organization hereby declares that, in case it holds granted patents and/or pending applications, the use of which may be required to implement the standard(s) developed by the RF TG, in accordance with the Ecma Code of Conducts in Patent Matters Version 1, and its Experimental Extension Version 1, for those patent claims that end up being required to implement the final version of such Ecma International Standard(s), that:	
The RF TG Member Organization is prepared to grant a free of charge license to an unrestricted number of applicants on a worldwide, non-discriminatory basis and under other reasonable terms and conditions to make, use, and sell implementations of the standard (s) prepared by the above RF TG.	
Negotiations are left to the parties concerned and are performed outside of Ecma International.	

The RF TG Member Organization reserves the right to license on reasonable terms and conditions (but not for free) to those who are only willing to license their patent claims, whose use would be required to implement the above standard, on reasonable terms and conditions (but not for free).

Free of charge: The term "free of charge" does not mean that the Patent Holder (RF TG Member Organization) is waiving all of its rights with respect to the essential patent. Rather, "free of charge" refers to the issue of monetary compensation; *i.e.*, that the Patent Holder (RF TG Member Organization) will not seek any monetary compensation as part of the licensing arrangement (whether such compensation is called a royalty, a one-time licensing fee, etc.). However, while the Patent Holder (RF TG Member Organization) in this situation is committing to not charging any monetary amount, the Patent Holder (RF TG Member Organization) is still entitled to require that the implementer of the above document abide by other reasonable terms and conditions consistent with the Patent Holder's (RF TG Member Organization) commitments under this Form such as those relating to governing law, field of use, reciprocity, warranties, etc.

Reciprocity: As used herein, the word "reciprocity" means that the Patent Holder (RF TG Member Organization) shall only be required to license any prospective licensee if such prospective licensee will commit to license its essential patent(s) or essential patent claim(s) for implementation of the same above document for free or under reasonable terms and conditions.
