

## ***Non-Ecma-member contributions to the planned TC39 RF TG Work***

**Source:** Mr. I. Sebestyen (SG Ecma)

As decided by the April 2013 CC meeting this is an additional TC39 RF TG “Operational document” added to the informational package sent to the GA (GA/2013/023 Experimental TC39 RF TG Policy package).

Vote and Decision on the policy and the documents will be made at the June 2013 GA meeting.

The experimental TC39 RF policy is additional to the normal Ecma Patent Policy and it is only valid for TC39. Experimental means that based on experience further changes are possible. The idea is to create within TC39 a Royalty Free Task Group which is permitted to produce RF standards. The scope of the group has to be approved by the GA. Ecma members who want to join the TC39 RF TG must fill in an appropriate registration form (included in the informational package). While the overwhelming majority of work is expected to be done within the RF TG, the policy also should allow the exceptional possibility of non TC39 RF TG (other Ecma members and non members) sourced contributions.

The CC has therefore developed and agreed on the following click-through web form (to be put on the TC39 web pages):

## Contribute to Ecma TC39 Royalty Free Task Group as a non-member

[Join](#) as an Ecma member

Please fill in your personal information below : items marked with a \* are mandatory

**Title**

**Last name\***

**First name\***

**Affiliation\***

**Phone\***

**Email\***

Herewith,

**License\***

- I confirm that I have the right to provide all contributions I will make, and if I am making a contribution on behalf of an organization, I confirm that I have the right to make this contribution on behalf of my organization and to bind my organization to the obligations below
- I (or my represented organization) grant Ecma the irrevocable right to use, free of charge, all or parts of my contributions for the purposes of standardisation
- In case the implementation or use of the resulting standard incorporating said contributions requires patents or any other kind intellectual property rights that I (or my represented organization) own, I (or my represented organization) grant a license free of charge to an unrestricted number of applicants on a worldwide, non-discriminatory basis, and under other reasonable terms and conditions to manufacture, use and/or sell implementations of the standard.
